## Blog Section

**Blog categories:** Admin can create, edit or delete blog categories.

**Blogs:** The admin can add, edit and delete blogs and provide information in that regard. The blog commenting shall be either facebook or, Disqus as defined for the product reviews.

## Email Tracing Section

**Email Tracing:** Email tracing has been introduced to trace the communication message between customers and the product owner. Admin can monitor all the messages and delete irrelevant message from user.

The screenshot shows a web application window titled "View Email Tracing". On the left, there is a sidebar with a tree view labeled "Fields" and "Managers". The main content area displays a table with the following data:

Email	amuhiminulhasan@gmail.com
Phone	+349-59-8401996
Message	Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
Product	iPhone SE
Product Owner	lemasixex
Date	23/06/2016
Sender Info	as :AS23956 AmberIT Limited city :Dhaka country :Bangladesh countryCode :BD isp :dhakaCom Limited lat :23.7916 lon :90.4152 org :AmberIT Limited query :118.179.165.41 region :C regionName :Dhaka Division status :success timezone :Asia/Dhaka

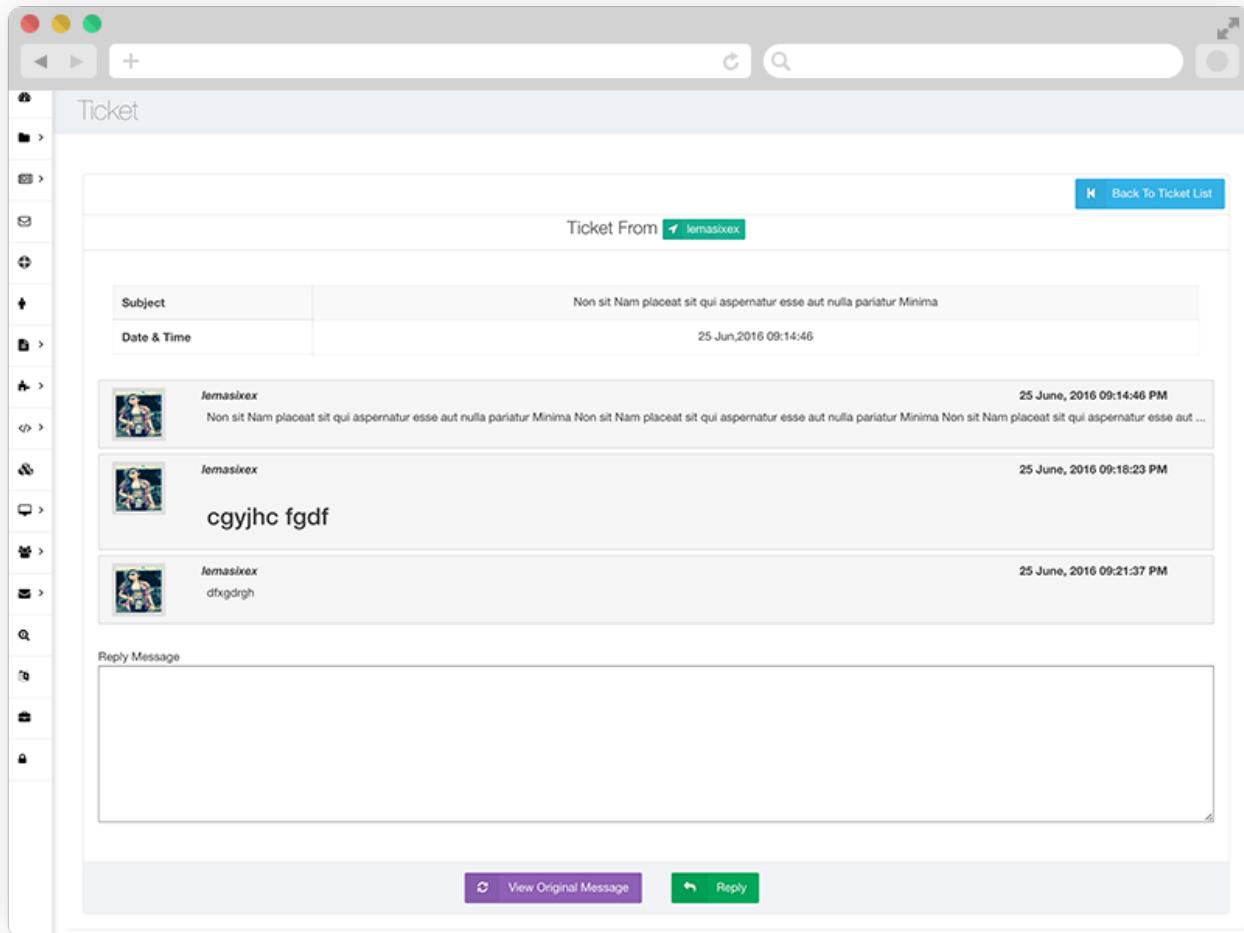

On the right side of the interface, there is a sidebar with several items, some of which are highlighted in green, indicating they are selected or active. The items include "Email Tracing", "Email Tracing", and "Email Tracing".

## Support Ticket Section

**List:** Admin can see the list of created support ticket from all the users with subject of the ticket and creation date and time.

**View message:** Admin can view all message associated with that ticket, he can also reply specific message of any ticket.

**Delete:** Admin can delete any support ticket if he wants to.

## User Section

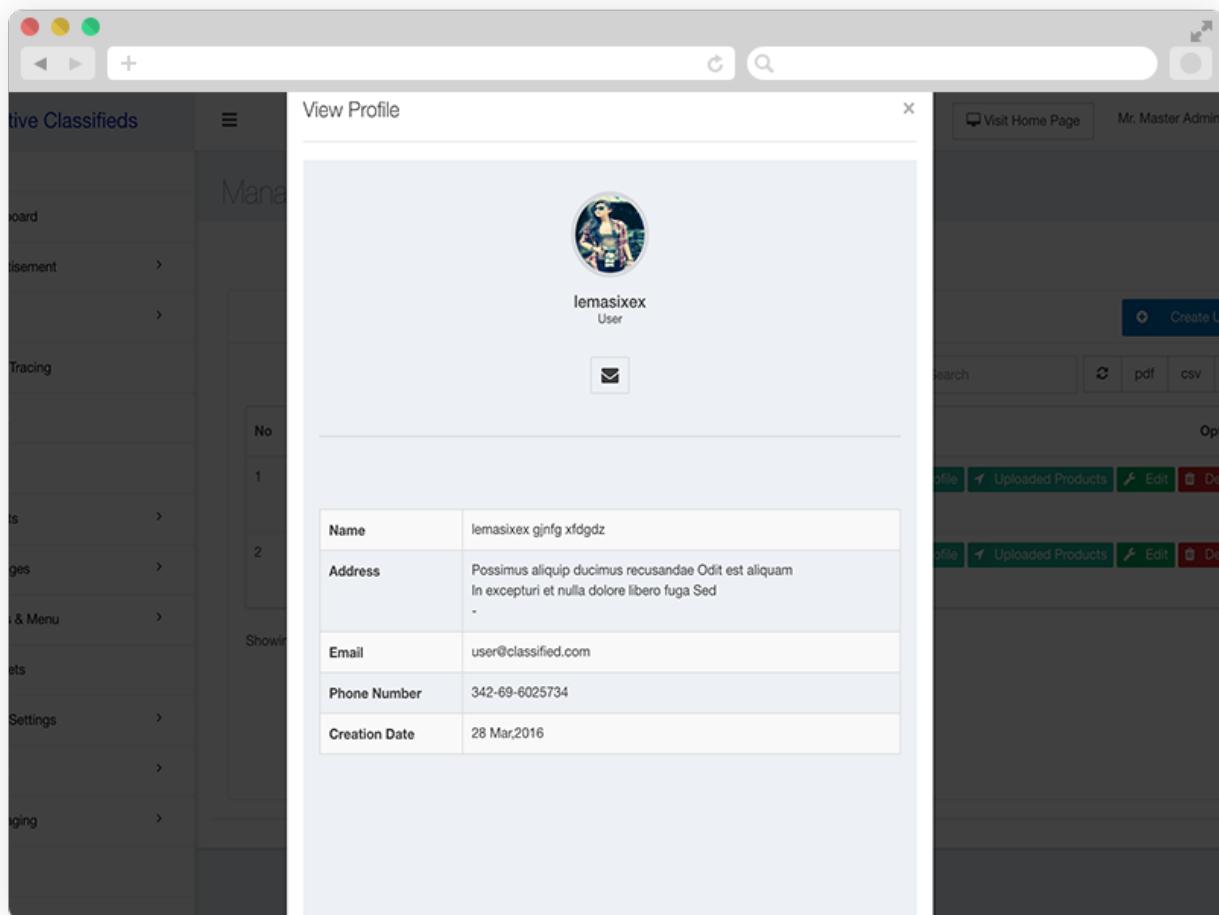

**List:** All the customers registered from the frontend shall be listed in the **user list**.

**Profile:** Admin can view the customer profile by clicking this button.

**Uploaded products:** Admin can view all the products uploaded by any user.

**Edit:** Admin can edit information of any users.

**Delete:** Admin can delete any user if he wants to.

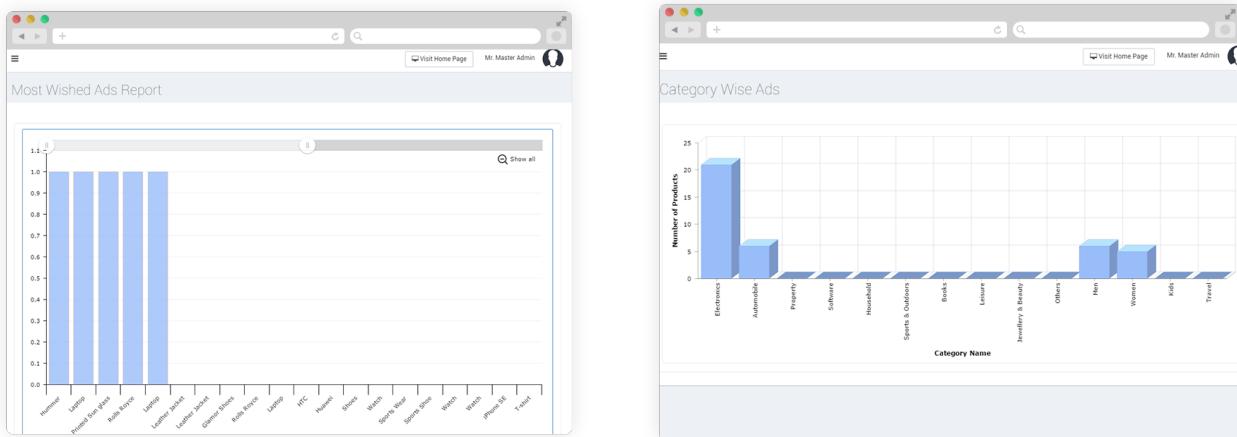

## Report Section

**Category wise advertise report:** A 3d graph has been provided here so that admin can monitor number of advertise uploaded per category.

**Product/advertise wish report:** Admin can notice from here that which product is more liked by the user.

**Most viewed advertise/product report:** From graph admin can see which product is getting more attention among the user of the system.

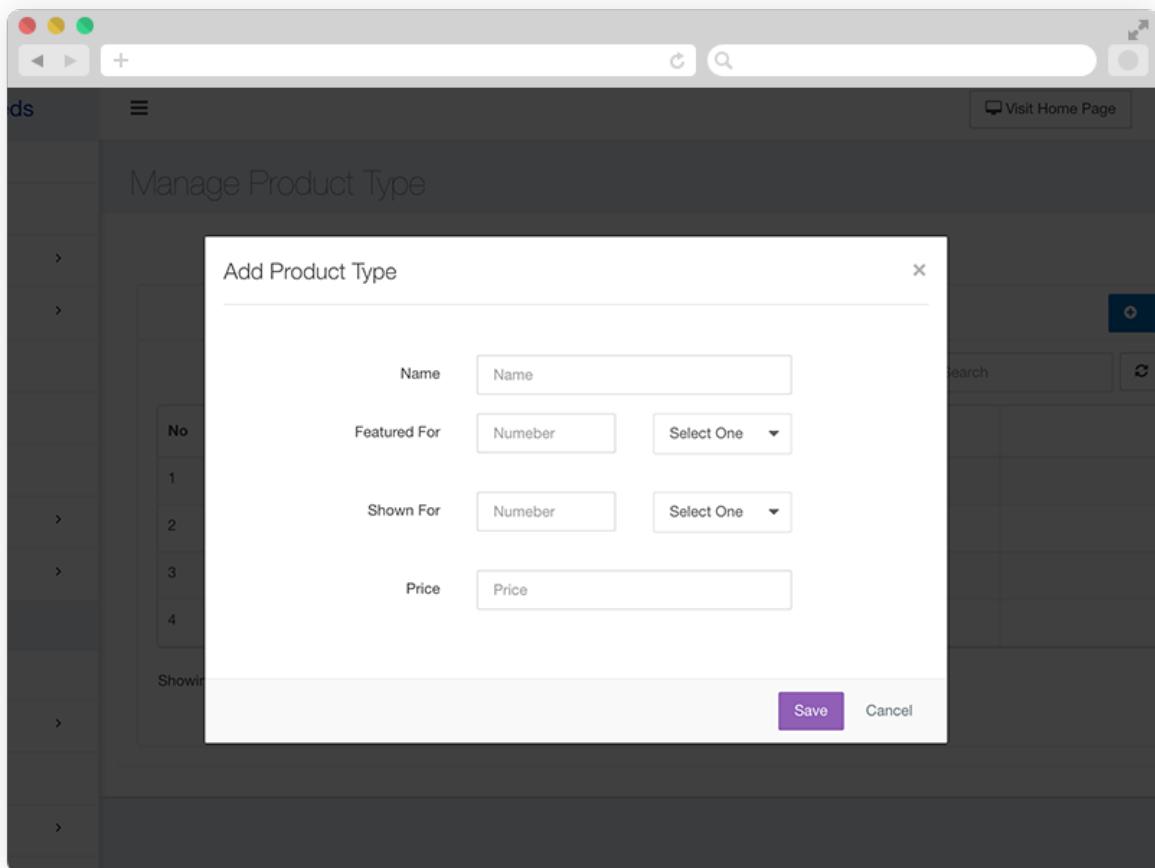

## Package Section

### Product Package Section

**Add product package:** Admin can create/add product package by giving information about the name of the package, number of allowed featured products and its validation period, number of products that should be shown in the frontend without being featured and its validation period and price.

**Edit:** Admin can edit any information of any product package.

**Delete:** Admin can delete any product package if he wants to

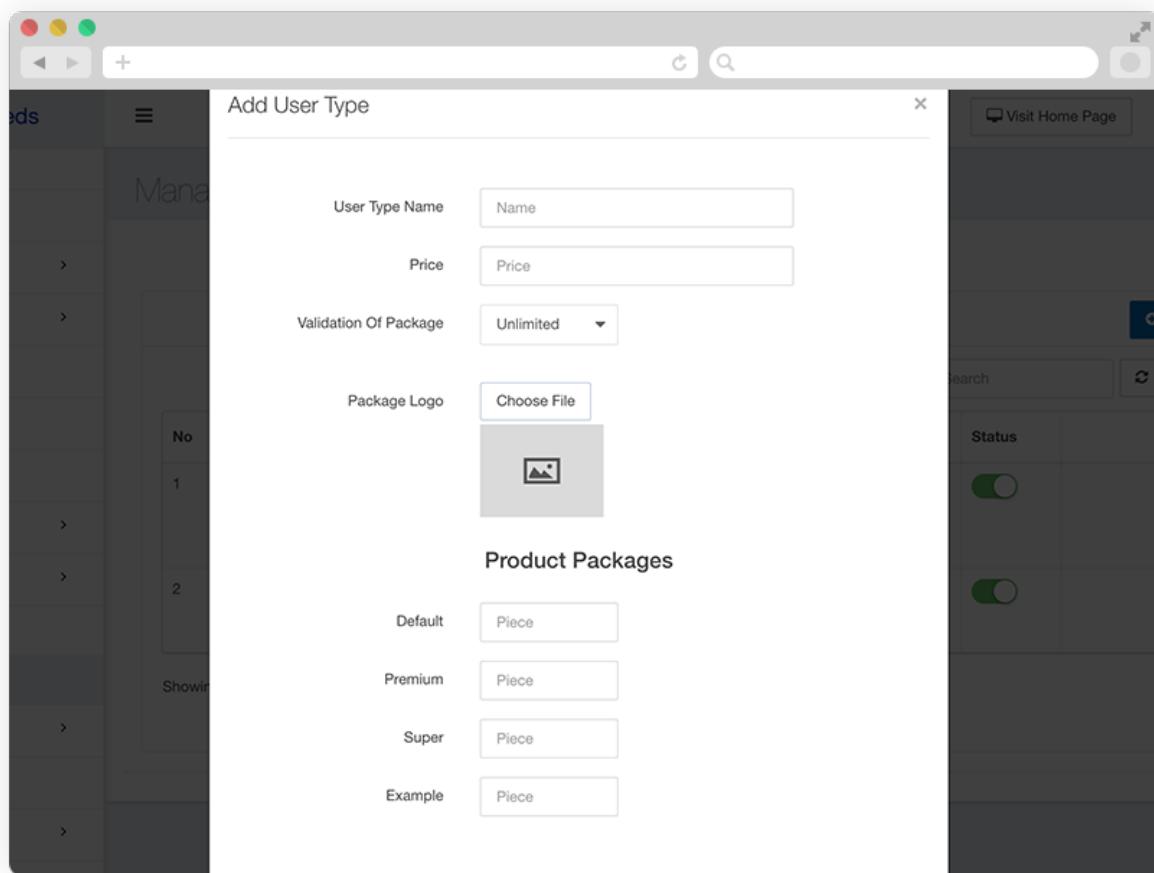

## User Package Section

**Edit:** Admin can edit any information of any user package.

**Delete:** Admin can delete any user package if he wants to.

## Pages and Menu Section

### Page Section

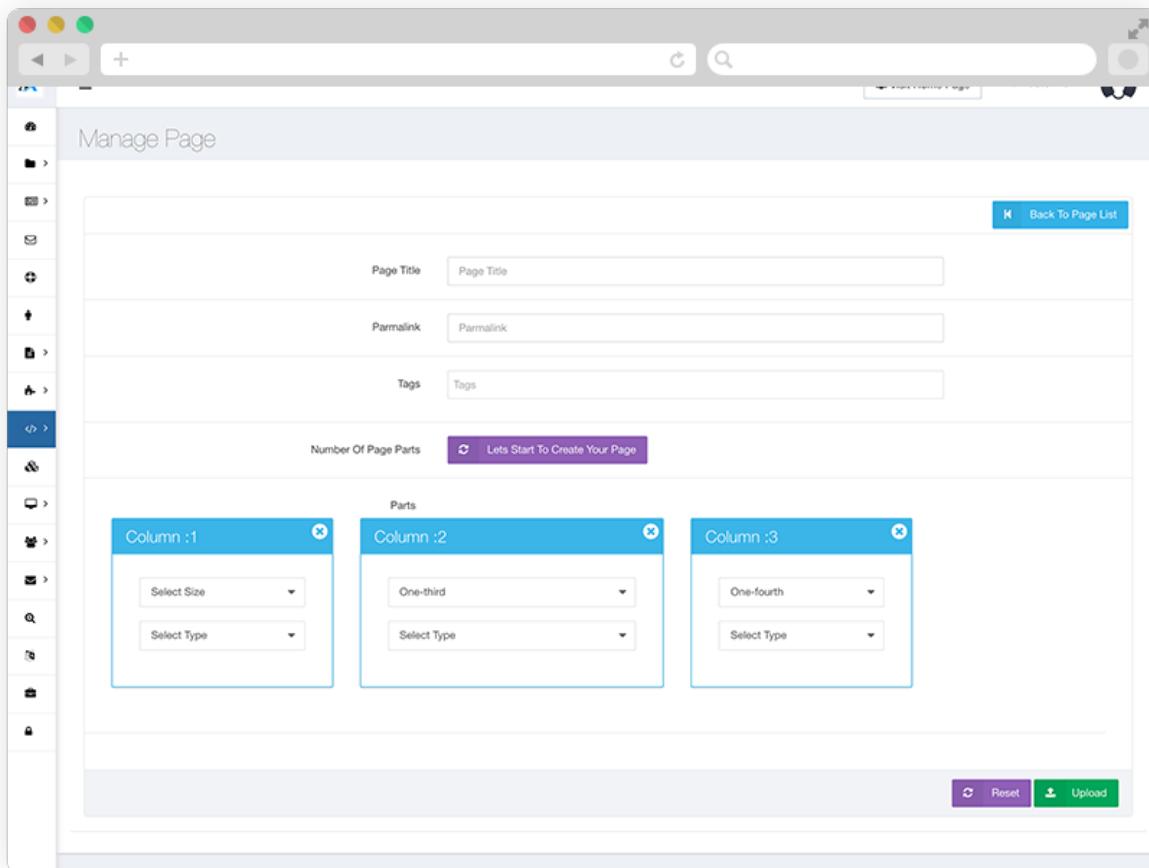

New pages can be added to the system from the admin and can be customized to a complete static page.

**Create new page:** The Admin can create new page from here. The Admin will set the name of the page name and the permalink of the page will be set automatically. The sizes of the columns of the page shall also be selected by the admin. Maximum of four columns can be added to a page. For each column Admin can set widgets or texts and images. Clicking 'upload' will set the page to the homepage and there will be a new menu on the homepages.

**Preview:** Click preview to view the page you created. You can view it even if it is unpublished.

**Edit:** Admin can edit the added pages as like as it was added.

**Publish:** Admin can publish/unpublished page on the pages' list.

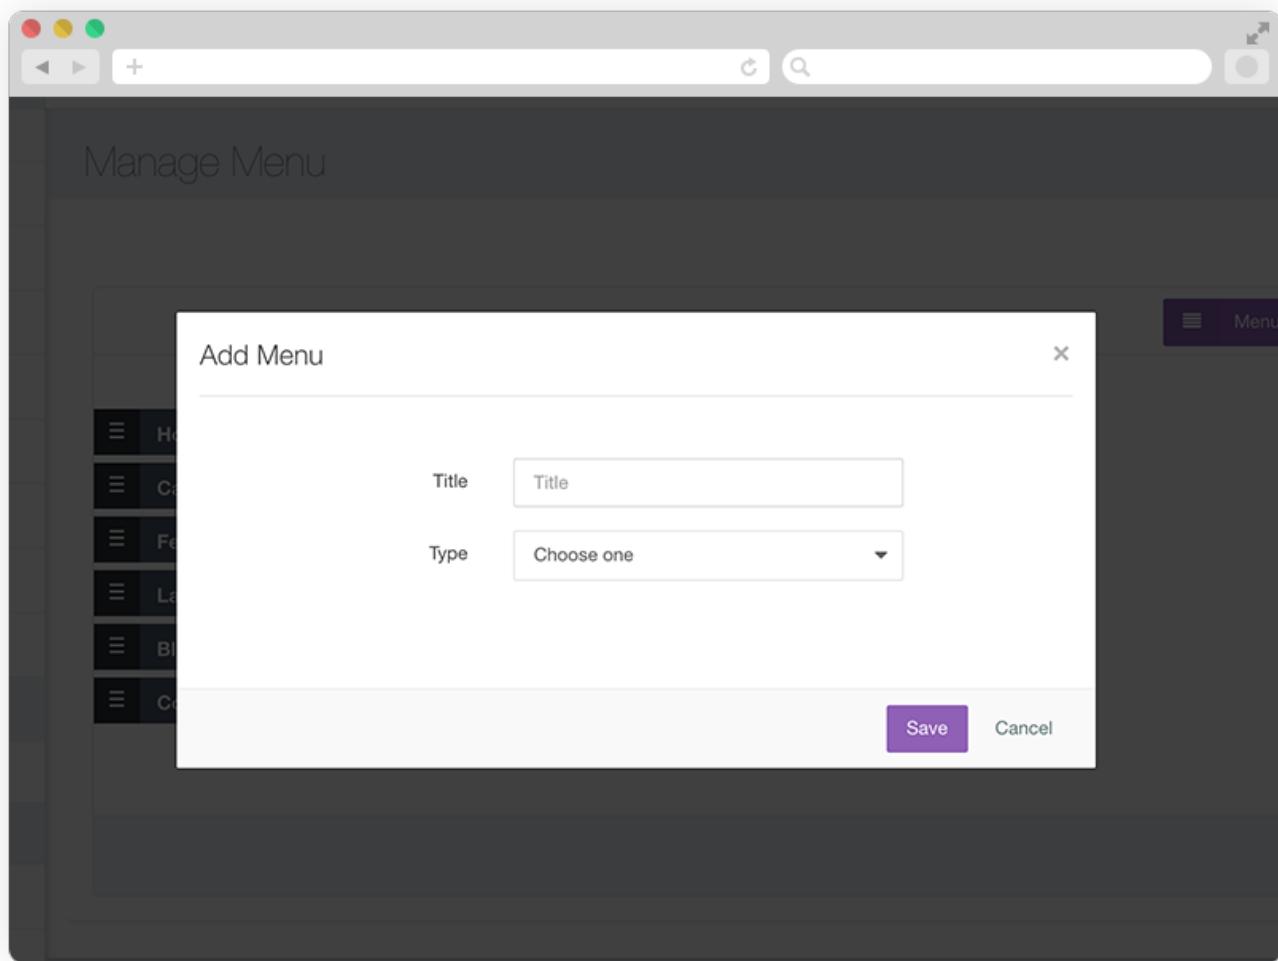

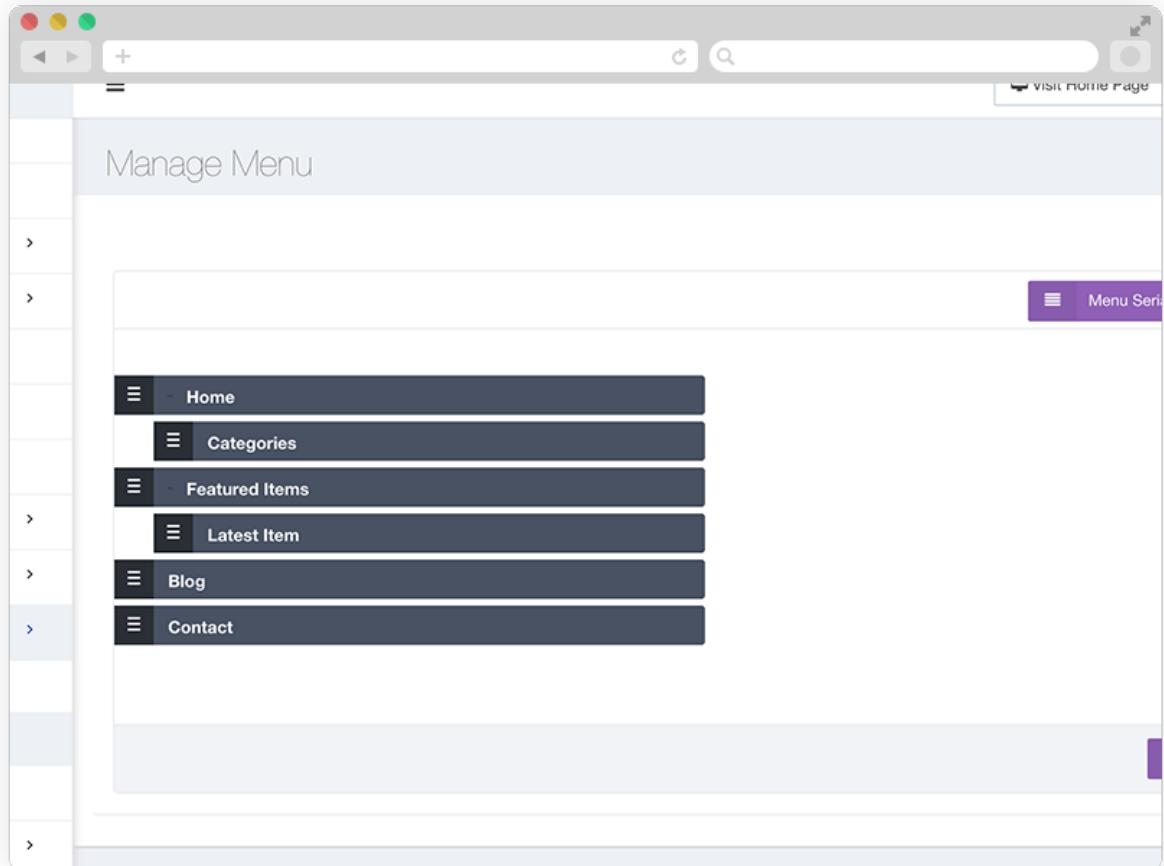

### Menu Section:

Admin can control the menu option of the front end with this feature. 5 default front end menu option is set for the system. Admin can create as many options he wants to. Admin can serialize menu according to his will and can create up to two subdivision labels.

**Add menu:** Admin can create/add menu by giving the title of the menu and selecting the type (page/link).

**Menu serial:** Admin can serialize menu by drag & drop according to his will and can create up to two subdivision labels.

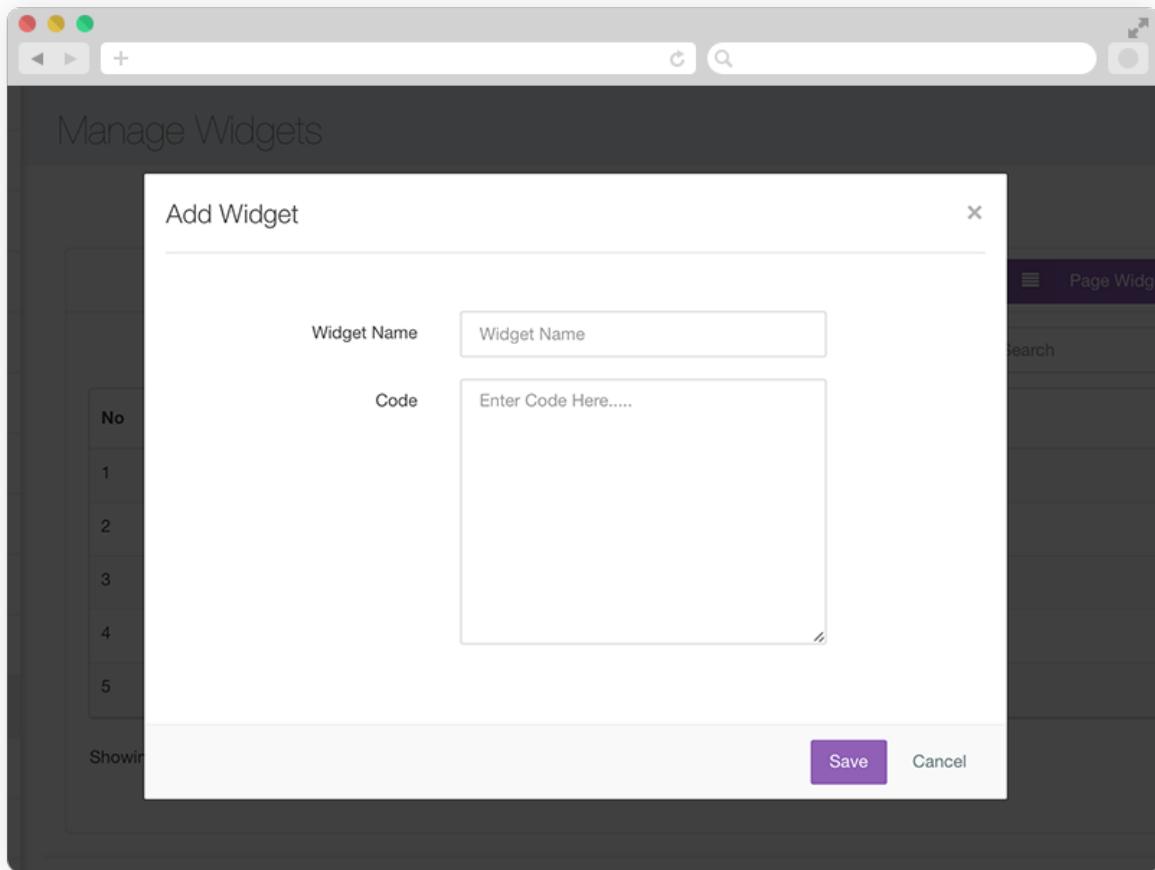

**Edit:** Without the default 5 menu option, admin can edit any menu option.

**Delete:** Without the default 5 menu option, admin can delete any menu option if he wants to.

## Widget Section

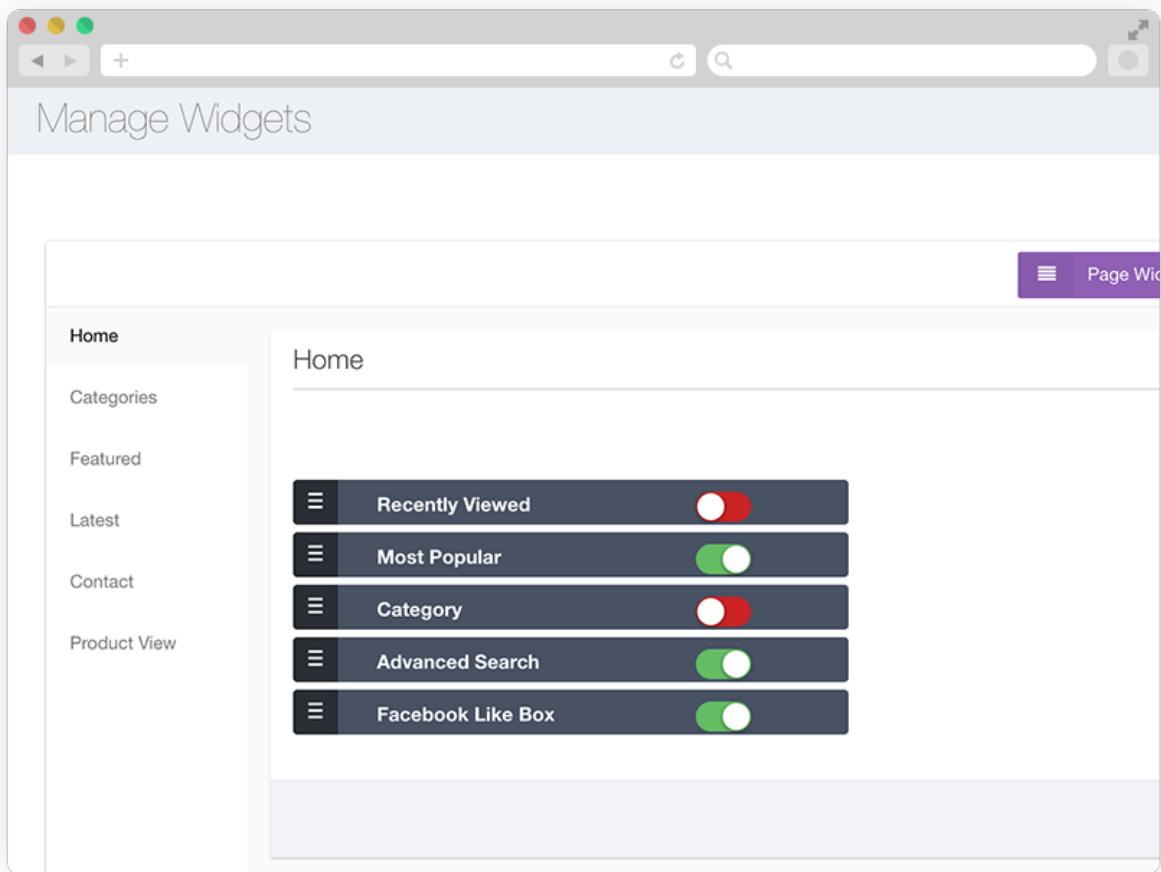

Default 5 widgets have been set for the front end..

**Add widget:** Admin can create/add widget by giving the name of the widget and widget code.

**Publish/Unpublish widget:** Admin can publish or unpublish any of the widget.

**Page wise widget serial:** Admin can set and serialize widget of home, categories, latest product, featured product, product view and contact page.

**Edit:** Without the default 5 widget admin can edit any widget.

**Delete:** Without the default 5 widget option admin can also delete any of his created widget.

## Front Settings Section

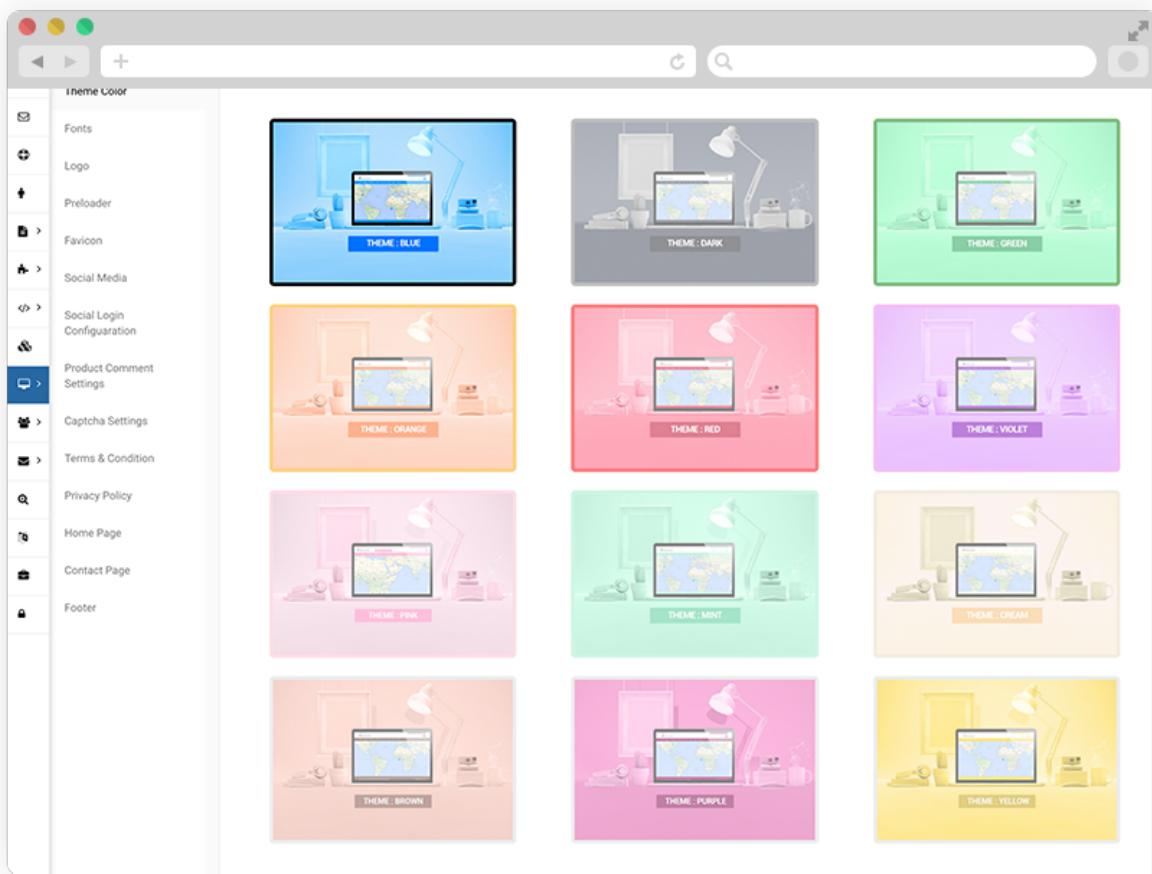

### **General Settings:**

Admin can set 'system name', 'system email', 'system title', 'language' and 'notification sound control(for both admin panel and front-end)', 'number of search product result' from here. You can set the Homepage Cache Time (in Minutes) from here.

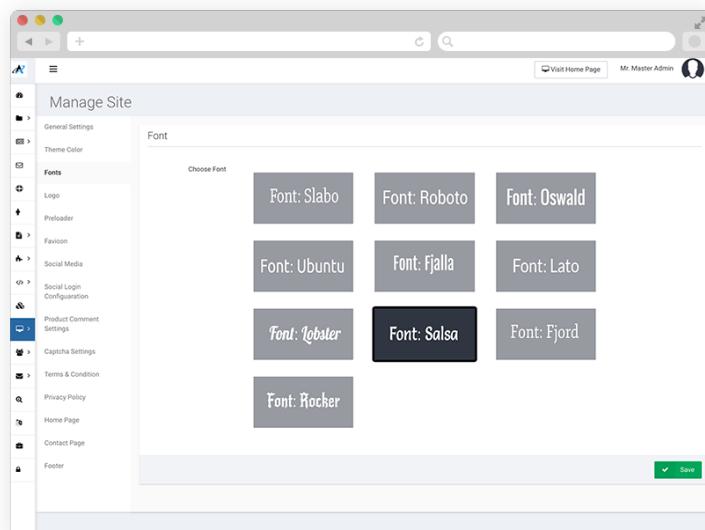

The screenshot shows a web browser window with a light gray header bar containing standard icons like back, forward, and search. Below the header is a navigation bar with a 'Visit Home Page' button. The main content area has a light gray background and displays the following settings:

General Settings	
System Name	Active Classifieds cms
System Email	admin@shop.com
System Title	Active Classifieds cms
Homepage Cache Time (Munites)	10 Munites
Language	English
Number Of Search Product Result	12

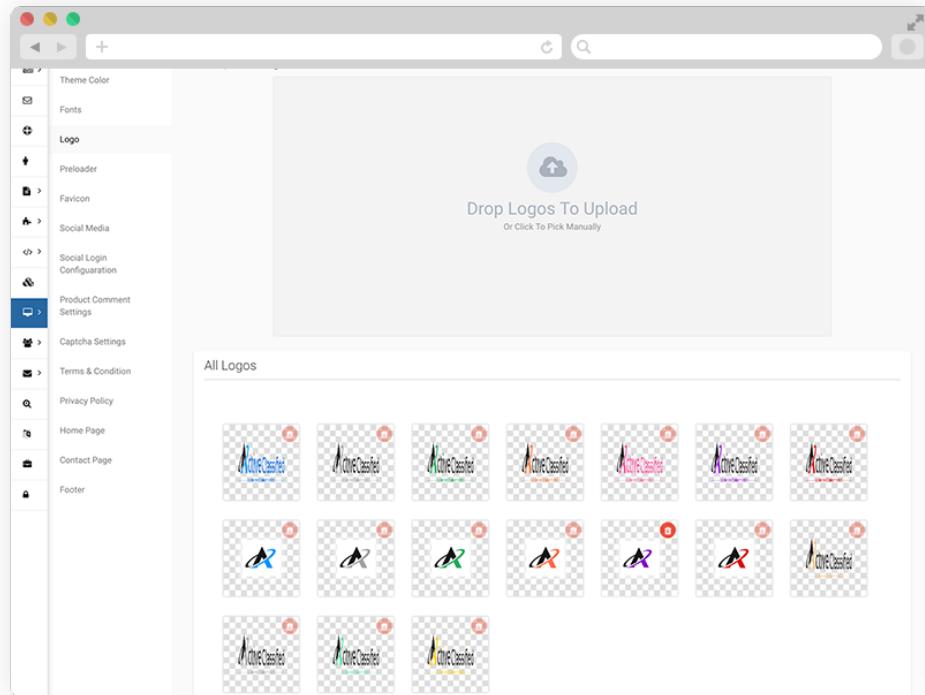

**Theme Color:** Admin can set theme color scheme for front-end from 12 different color sets in here.

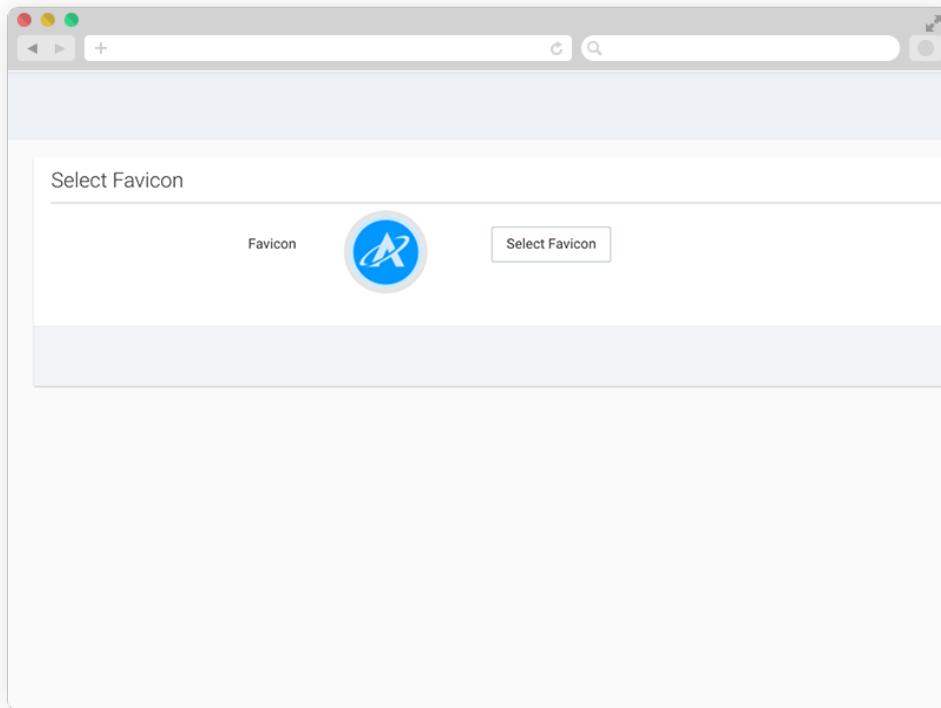

**Fonts:** Admin can set front end fonts from 10 different fonts in here.

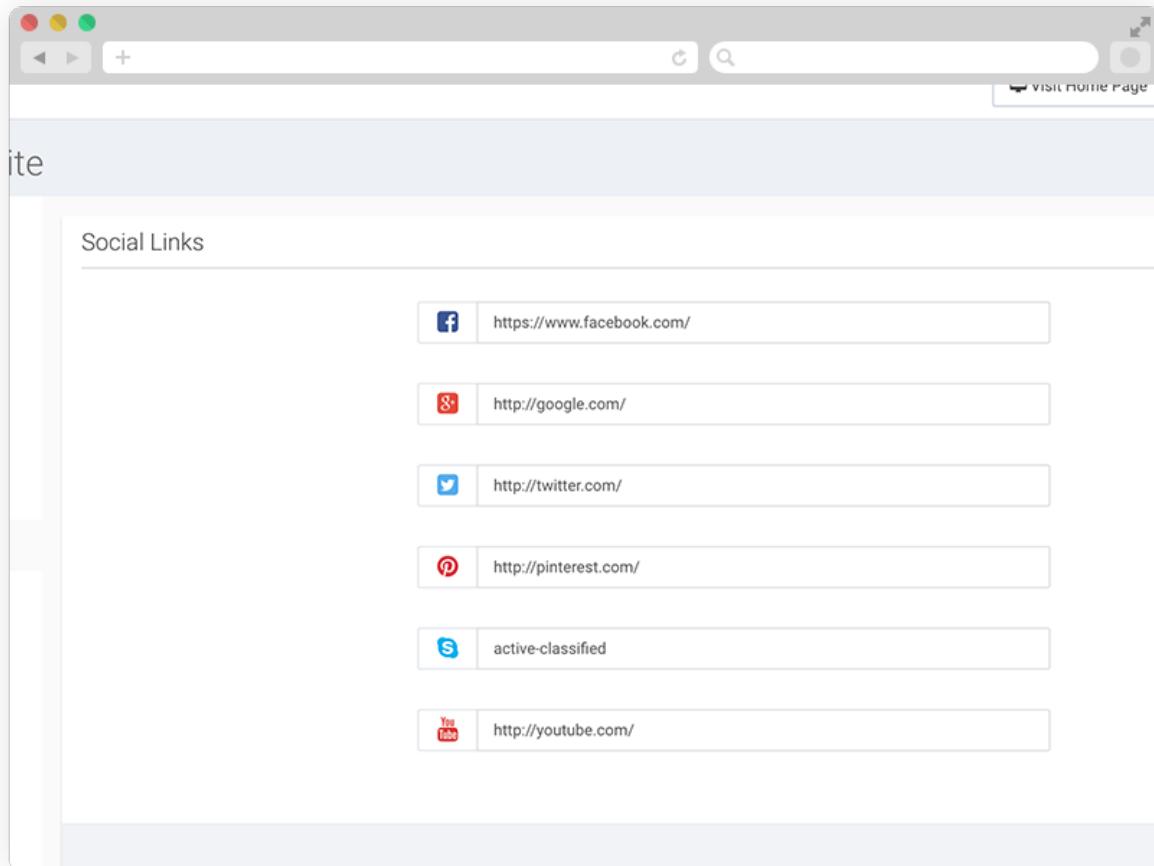

**Logo Uploads:** Admin can set website logo from here as you need. You can select homepage (header and footer logo) and admin logo separately from here.

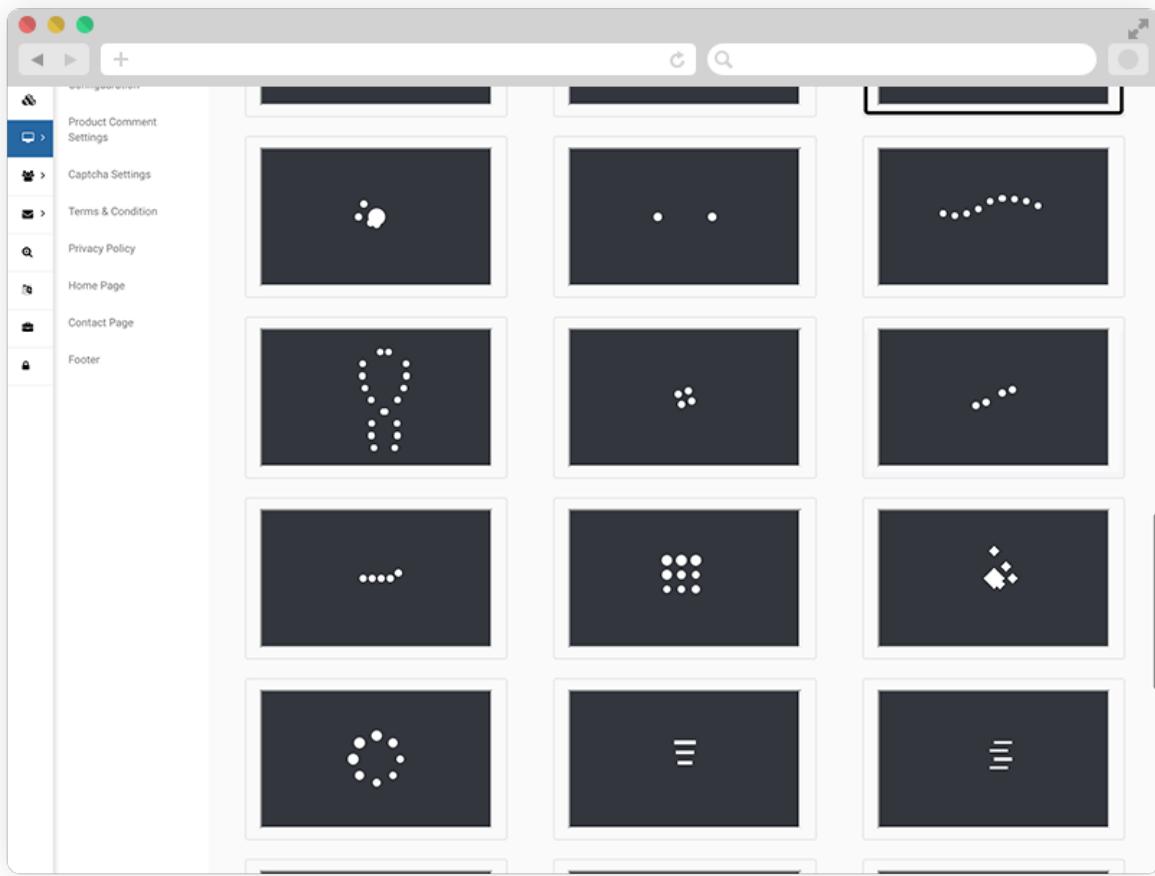

**Favicon:** Upload your favicon from here.

**Social Media:** You can upload all your social media links (Facebook, Google-plus, twitter, Skype, Pinterest, YouTube), which will be used in the front site.

**Preloader:** Admin can set any of the 30 preloader as front end preloader and also can change its color as well as its background color.

**Facebook login:** Admin need to give his/her Facebook App ID and secret ID for manage the user Facebook login/registration system.

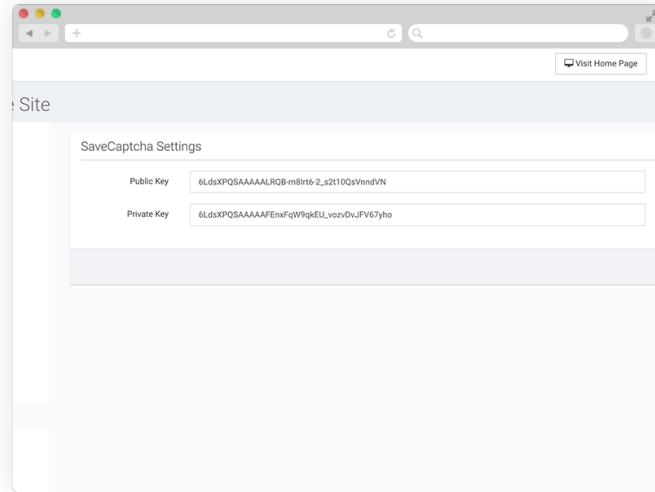

**Google Login:** Admin need to give his/her Google Application Name, Client ID, Client Secret, Redirect\_uri and API key for manage the user Google login/registration system.

The screenshot shows a web-based administration panel with two main sections: Facebook Login Settings and Google+ Login Settings. Both sections have a 'Status' toggle switch set to 'On'. In the Facebook section, there are fields for 'App ID' and 'Secret'. In the Google+ section, there are fields for 'Application Name' (set to 'Super Shop'), 'Client Id', 'Client Secret', 'Redirect URI', and 'API key'.

**Comment Settings:** Admin will provide 'Disqus ID' or 'Facebook App ID' for opening commenting in the product page. The Admin can set Disqus or facebook or google comment for product description and blog page.

The screenshot shows a 'Product Comment Settings' configuration screen. It includes a dropdown menu for 'Type' (set to 'Disqus Comment'), a text input field for 'Discus ID' (containing 'activeittest'), and a text input field for 'Fb Comment Id'. A green checkmark icon is located in the bottom right corner of the form area.

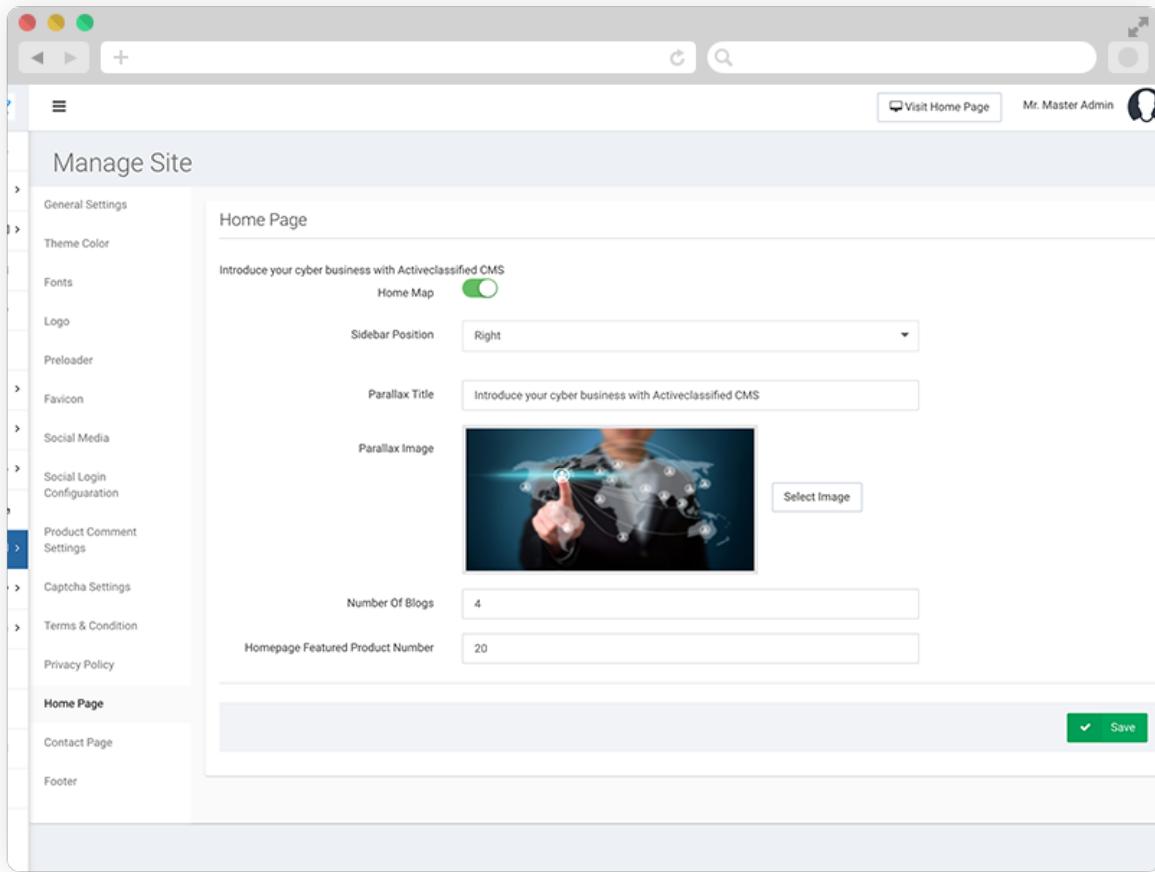

**Captcha Settings:** Admin will provide Public Key and Private Key for Contact form's Google Captcha.

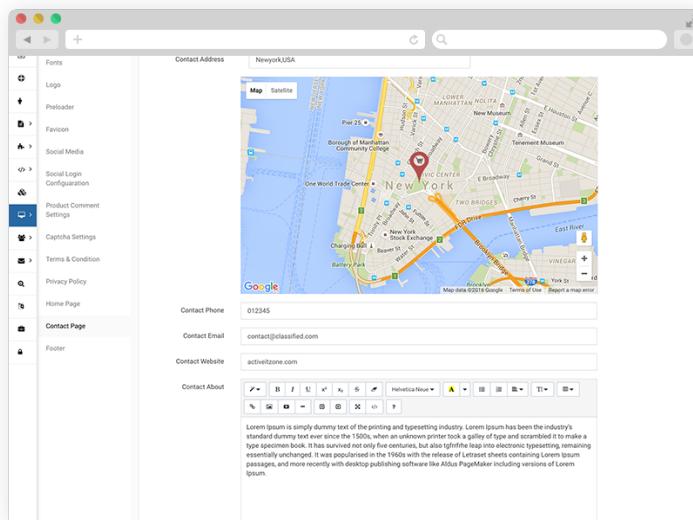

**Terms and Condition:** Terms and conditions can be provided to show them up in the frontend.

**Footer Settings:** You can set footer text from here.

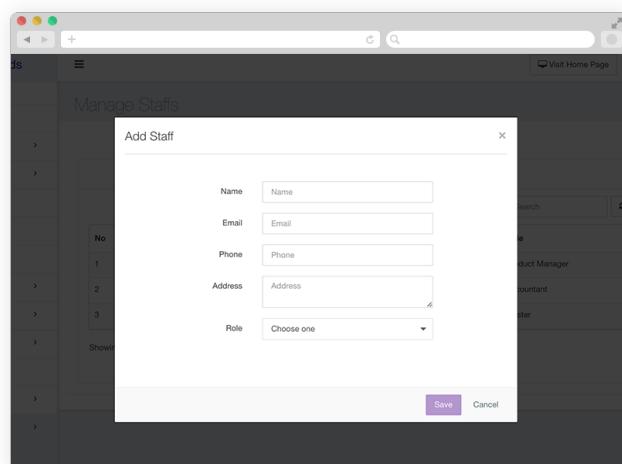

## Staffs Section

### How to manage the stuffs?

Admin can manage all his staffs that will have access to the admin panel.

**Create Admin:** The Admin can create other admin for the admin panel, who will be the staffs of his shop. The Admin will provide the staff's name, email etc. and also provide the Role the staff is going to accomplish as an admin. Role means the set of permissions to make changes in the admin panel. On creation of admin, he'll get confirmation email with an auto-generated password, which can be changed later.

**Edit:** The admin can edit the details of a staff except email from here.

**Delete:** Admin can delete all admins except the master admin.

### **Staff Permissions:**

Admin can manage Role (set of account permissions) for the staff.

**Create Role:** The Admin can create role by providing name, description and switching on the features the Admin want the role-holder to get. For example, an admin can set permission for 'Product Managing Staff' to change products and brands. If any staff is given this role, he'll only see products and brand in his admin panel nothing more.

**Edit:** The Admin can edit the created roles.

**Delete:** The Admin can delete the roles he thinks not needed. But, if any admin is already added to the role and it's deleted, it'll make fatal errors.

The screenshot shows a software application window with a sidebar menu on the left and a main configuration area on the right. The sidebar includes options like Users, Reports, Packages, Pages & Menu, Widgets, Front Settings, Staffs (selected), Messaging, SEO, Language, Business Settings, and Manage Admin Profile. The main area is titled 'Permissions' and lists various staff-related permissions with toggle switches. Most permissions are turned off (red), except for Business settings, Category, Contact message, Sale, Slider, Stock, Sub category, User, Newsletter, Language, Page, Discount Coupon, Vendor, Membership, SEO, and Membership Payments, which are turned on (green).

Permission	Status
Staff	Off (Red)
Banner	Off (Red)
Brand	Off (Red)
Business settings	On (Green)
Category	On (Green)
Contact message	On (Green)
Site settings	Off (Red)
Product	Off (Red)
Report	Off (Red)
Role	On (Green)
Sale	On (Green)
Slider	On (Green)
Stock	On (Green)
Sub category	Off (Red)
User	Off (Red)
Newsletter	Off (Red)
Language	Off (Red)
Page	Off (Red)
Discount Coupon	Off (Red)
Vendor	Off (Red)
Membership	Off (Red)
SEO	Off (Red)
Membership Payments	Off (Red)

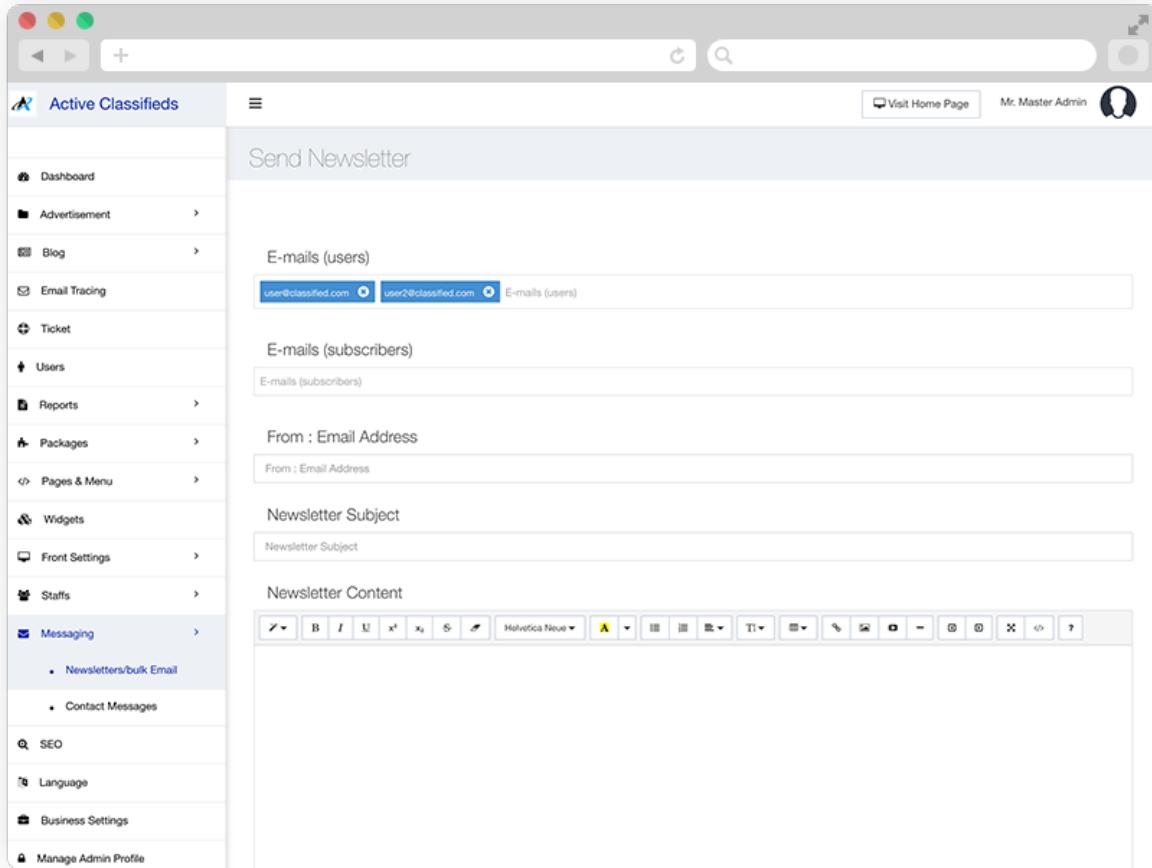

## Messaging Section

### How to manage Newsletters?

The Admin can send newsletters from the admin panel. He'll see all the customer's email addresses on the top. He can remove some of them. He'll also get the list of subscribers' email addresses from which he can remove. He'll provide the 'from' Email Address. Subject of the newsletter and the HTML of the newsletter in the HTML Editor shall be given. For providing raw html code to the newsletter, the Admin can go to the code view of the editor and then paste the code there. The Admin shall get confirmation once the newsletter is sent.

### How to manage Contact Messages?

The Admin can read and reply the messages sent from the home contact page. The Admin will see a list of latest messages, read them and reply them. The reply will go as an email to the message sender.

## SEO Statistics Section

**SEO Settings:** Admin will input Meta tag, Meta content, Meta Description, Revisit After & keywords from here. The [Sitemap link](#) for SEO is here. You can get the sitemap form this link.

**Social Network Reach:** You'll get to have a look on how your website is shared and interacted in the most popular social media (i.e. Facebook, Google Plus etc.).

**Alexa Traffic Rank:** You'll see your global and country specific Alexa Traffic Rank here.

**Alexa Traffic Graphs:** You'll see your Daily Traffic Trends, clients' Time on Site and Bounce Rate etc. in Alexa graphs here.

**Search Index:** You'll have a look over Google Web Search Index, backlink numbers and other graphs here.

## Language Section

The System has the feature of using multiple languages. From here the Admin can manage this.

**Add Language:** The Admin can add new language for the system. Once He added a new language, he'll have to put all the translations to that language on the table.

**Add Word:** If needed, the admin can add new word. Once he added a new word, he'll have to provide translations of the word of all the languages separately from the list.

**Select Language:** On the dropdown the Admin will see all the added languages. On his selection from the dropdown, the list will be changed to that language's word list with translation.

**Delete Language:** Once a language is selected, the admin can delete that language.

**Save Translation:** The Admin, from the list, will get an input box and a save button for each word. The admin shall give the translation of the word on the input box and press save button. This will save the translation of that word only.

**Delete:** This is important! If the Admin delete a word from any list, it'll be deleted from every list, so it is better not to use this delete.

The screenshot shows a web-based administrative interface for managing language translations. On the left, there is a sidebar with various menu items: Advertisement, Blog, Email Tracing, Ticket, Users, Reports, Packages, Pages & Menu, Widgets, Front Settings, Staffs, Messaging, SEO, Language (which is currently selected), Business Settings, and Manage Admin Profile. At the top right, there are two buttons: "Add New Word" and "Add Language". Below the sidebar, a search bar includes "Select Language" and a dropdown set to "English". A red banner at the top of the main content area says "Delete Language : english". The main content is a table with columns: No, Word, Translation, and Options. The table lists 10 rows of data, each with a "Save" button (green with white icon) and a "Delete" button (red with white icon). The data in the table is as follows:

No	Word	Translation	Options
1	Most Wished Ads Report	Most Wished Ads Report	
2	F.A.Q Settings	F.A.Q Settings	
3	FAQ Settings	FAQ Settings	
4	Genral Business Settings	General Business Settings	
5	Genral Settings	General Settings	
6	Stripe Activation & Settings	Stripe Activation & Settings	
7	Currency Settings & Cash Payment Activation	Currency Settings & Cash Payment A	
8	Cash Payment Activation	Cash Payment Activation	
9	Category Wise Products	Category Wise Products	
10	Unpublished Ads	Unpublished Ads	

At the bottom, there is a pagination control showing "Showing 1 to 10 of 808 rows" and "records per page" with a dropdown set to "10". The page navigation buttons include arrows and page numbers 1 through 5, with "1" being highlighted in blue.

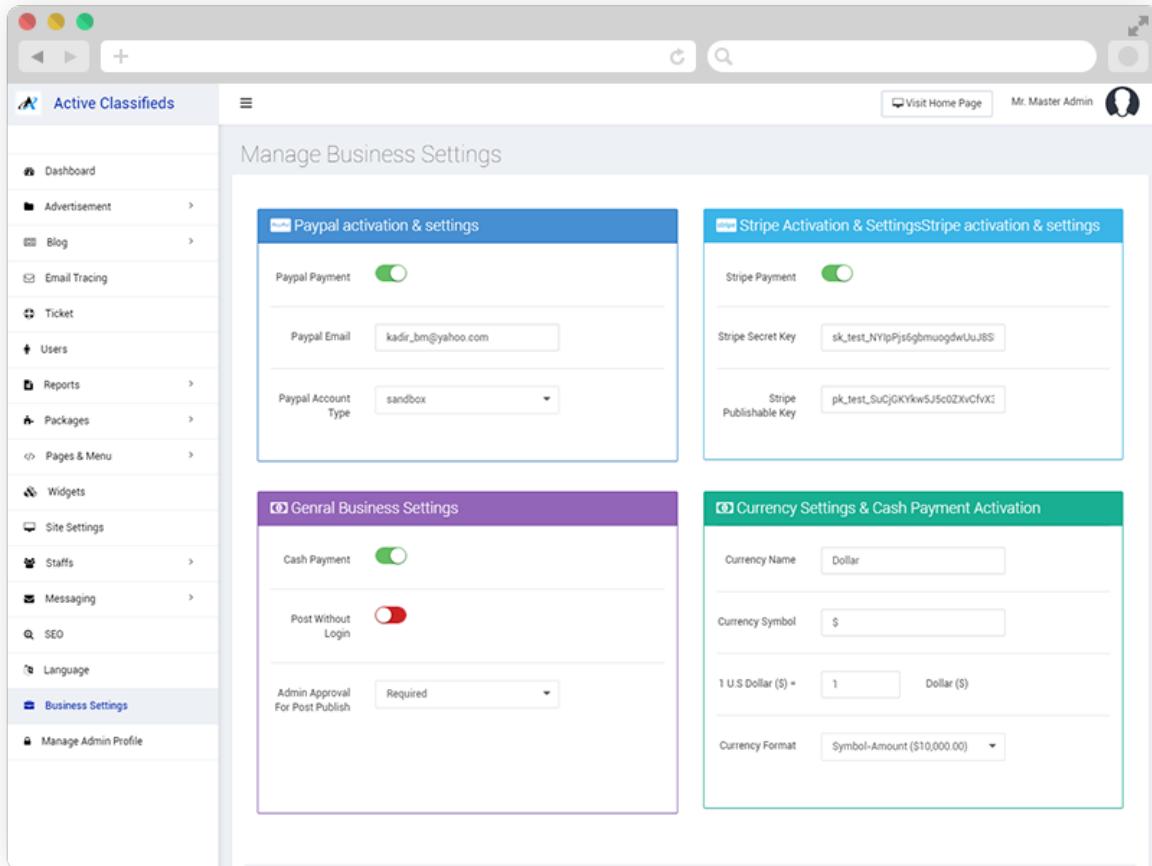

## Business Settings Section

The Admin shall change the business settings of the admin panel:

**PayPal Payment:** If the admin want to provide the customers with the PayPal payment system, he can switch it on. Provide PayPal Email (Payment Receiver) and the PayPal Account Type from the dropdown. If it is made off, customers will not see the PayPal button on the cart checkout.

**Stripe Payment:** If the admin want to provide the customers with the Stripe payment system, he can switch it on. Provide Stripe Secret Key and Stripe Publisher Key. If it is made off, customers will not see the Stripe button on the cart checkout.

**Currency:** The Admin shall provide Currency Name and Currency Symbol of the system. He'll also provide the exchange rate of the currency with US Dollar (\$). This is important!

## Manage Admin Profile Section

The Admin can manage his own profile. He can change the details of his own and can change his password.

The screenshot shows the 'Active Classifieds' admin dashboard. On the left is a sidebar with various menu items: Dashboard, Advertisement, Blog, Email Tracing, Ticket, Users, Reports, Packages, Pages & Menu, Widgets, Front Settings, Staffs, Messaging, SEO, Language, Business Settings, and Manage Admin Profile. The 'Manage Admin Profile' item is currently selected. The main content area is titled 'Manage Profile' and contains two sections: 'Manage Details' and 'Change Password'. In the 'Manage Details' section, there are four input fields: Name (Mr. Master Admin), Email (admin@classified.com), Phone (01673582219), and Address (122). Below these fields is a blue 'Update Profile' button. In the 'Change Password' section, there are three input fields: Current Password, New Password\*, and Confirm Password. Below these fields is a blue 'Update Password' button.

# Front View

The screenshot shows a web browser window for 'Active Classifieds'. The main content area displays a grid of blog posts. The first post has a thumbnail of a book titled 'BASIC CIVIL ENGINEERING' by S.S. BHAVIKATTI, with the text 'dummy text' and 'CATEGORY SCIENCE & TECHNOLOGY'. The second post is titled 'Velit' with the text 'CATEGORY DELEVARY'. The third post has a thumbnail of a landscape, with the text 'Sed pariatur ...' and 'CATEGORY DELEVARY'. Below these are two more posts with thumbnails and titles. To the right, there is a sidebar titled 'Blog Categories' listing categories like All Blogs (8), Delevary (5), and Science Fiction (0). There is also a 'Most Viewed' section with a thumbnail of a landscape and the text 'SED PARIATUR ASSUMENDA DOLOR ...'.

The screenshot shows a web browser window for 'Active Classifieds'. The main content area displays a large image of a landscape with rolling hills and a villa. To the right, there is a sidebar titled 'Blog Categories' listing categories like All Blogs (8), Delevary (5), and Science Fiction (0). There is also a 'Most Viewed' section with a thumbnail of a landscape and the text 'SED PARIATUR ASSUMENDA DOLOR ...'.

## Contact page

### **Google Map:**

Admin provided address will be shown on google map.

### **Contact Form:**

User can contact with the system admin by giving appropriate information over here.

### **Business Info:**

Admin provided informations for contact page will be shown here.

### **Stay Connected:**

Admin provided information for contact about will be shown here.

The screenshot shows a web browser window for 'Active Classified'. The header includes a logo, a search bar, and navigation links for 'LOGIN', 'SIGN UP', 'POST AN AD', and 'COMPARE (0)'. The main content area has a blue header bar with 'Contact' selected. Below this is a large Google Map of New York City's Lower Manhattan, specifically the area around City Hall. A red marker indicates the location of 'New York City Hall'. The map also shows the Brooklyn Bridge, the Woolworth Building, and various streets like Broadway, Chambers Street, and Centre Street. Below the map are three columns of content: 'Contacts Form' (with fields for Name, E-mail, Subject, and Message), 'Business Info' (with Address, Email, and Phone number), and 'Stay Connected' (with a placeholder text about Lorem Ipsum).

## User Profile Section

### User Profile:

After login user would be able to see his profile by clicking on the profile option in the top right section. Here is the detail description of "User profile".

### Advertisement Log:

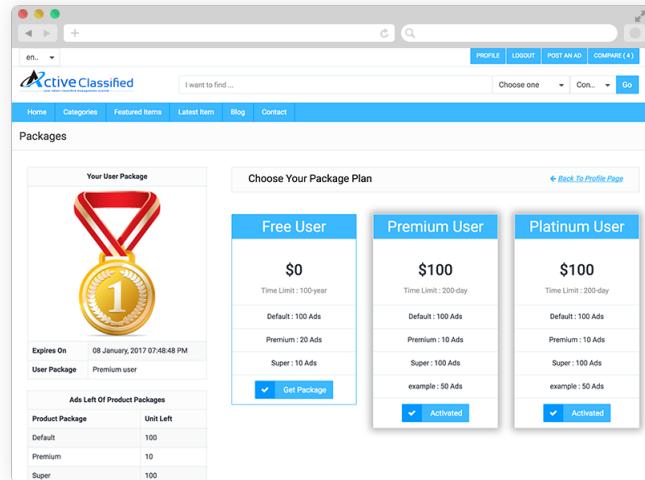

User will get list of all the uploaded advertisements. He can edit, view or delete any of his uploaded advertisements. He can also change the advertisement package of any advertisement. He can set advertisement package by selecting from current package or pay separately.

### Product Package:

User can select the "product package" for each of his/her uploaded product. The created product package has been controlled by "Product publishing duration" & "Limitation to make featured product". Product package's name, limited duration of publishing or featuring & price will be displayed according to admin created product package offers.

### User Package:

Clicking on the user package option in "**your info**" box takes the user to the user package page where he/she can see all the information of his current package information in "**your user package**". He/she can also see the number of remaining ads/advertisement package for his/her current user package in the "**Ads Left Of advertisement Packages**" section. User can change his/her current user package to any of the existing user package. Without the "**free user package**" change to any other package involves payment system. User can pay with PayPal or Stripe.

### Edit personal Info:

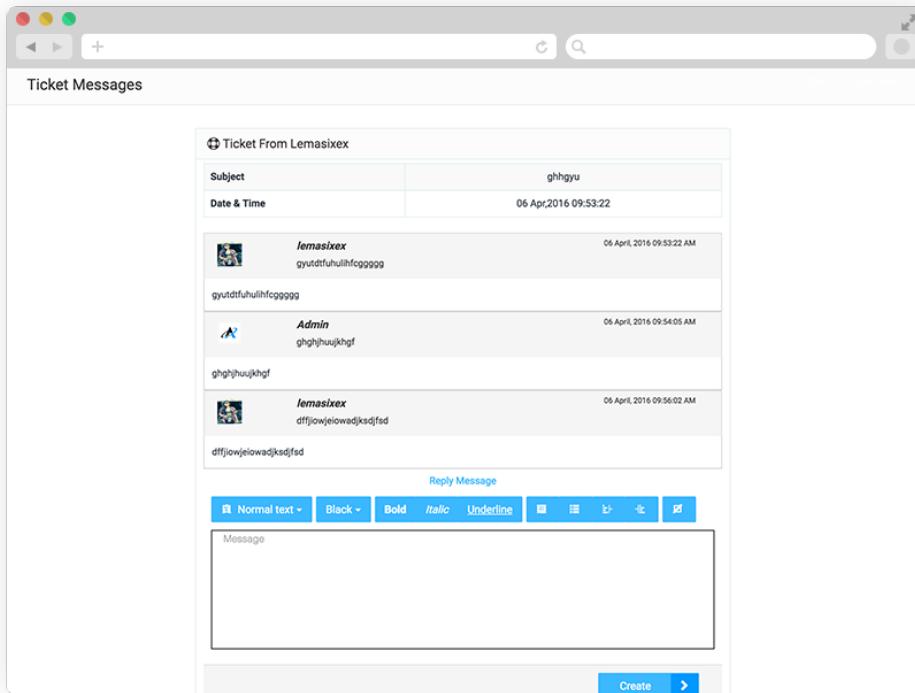

The Customer can change profile details. The Customer can also change his password.

### Email Tracing:

Users and visitors to the site can send messages to the seller of the advertisement form advertisement boxes and advertisement details page. The sent messages will be viewed to the concerned seller and also be viewed to the admin with all details and sender info.

### Support Ticket:

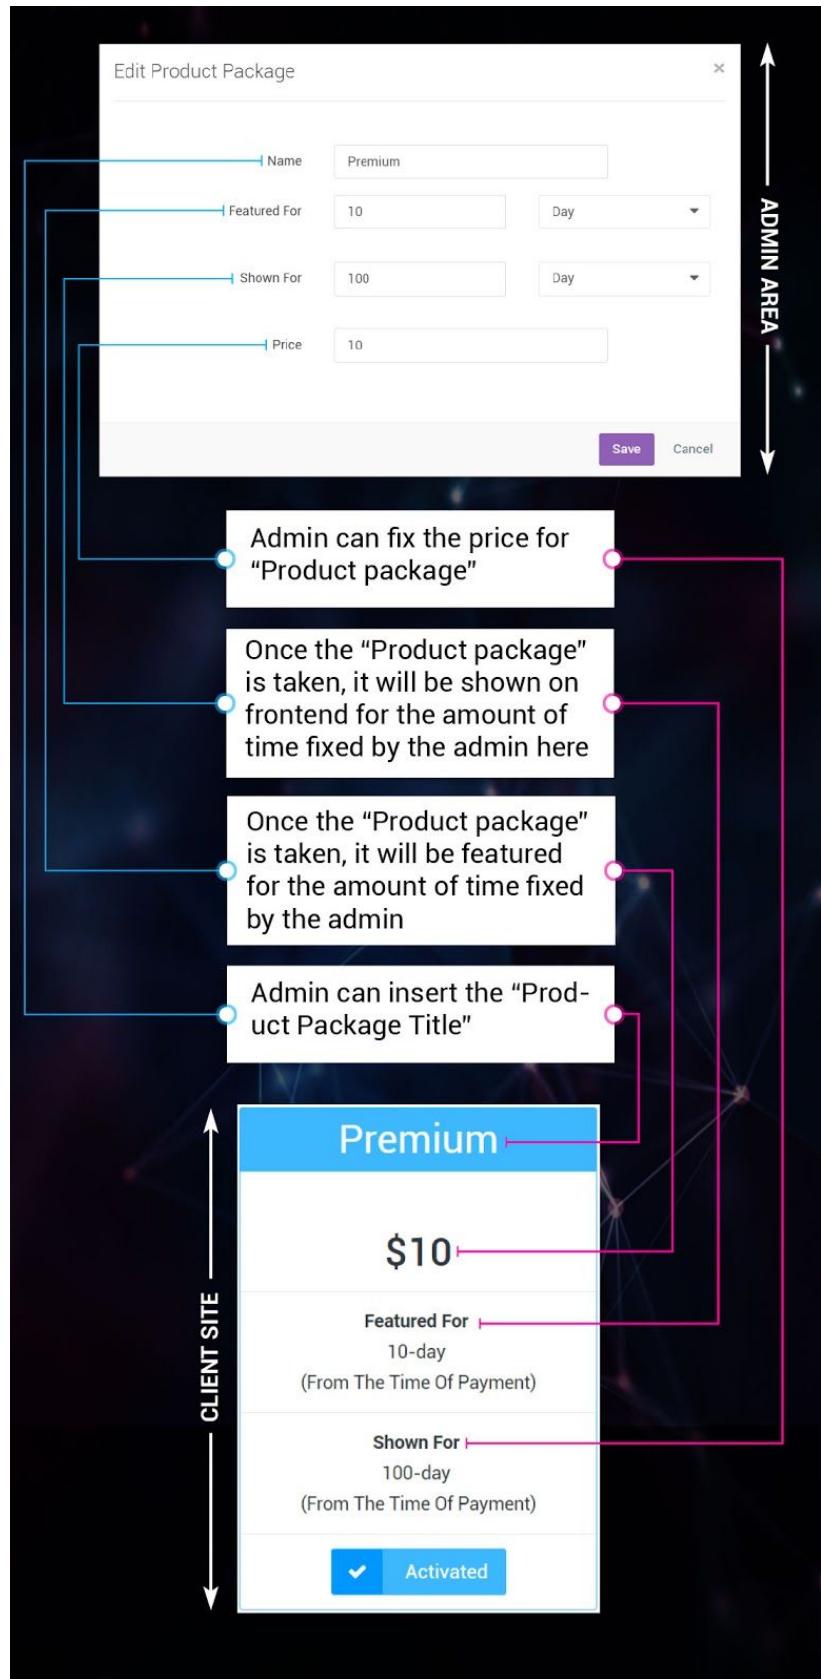

User has to create a ticket to the admin with subject and message. Then he/she will be able to message admin through the system. He/she can also see all the created ticket. By clicking view messages user can see all the conversation between him/her and admin. He/she can also reply from there.

### All Liked/ Favourite Advertisements:

The Customer will view all his liked/favoured advertisements in a list.
